2018   *77.40%*

PROJECTS

Smart Farming (12/2022)

- The project revolves around a website named "Smart Farming," which serves as a comprehensive platform for farmers to effectively monitor and manage various critical aspects of their agricultural practices.
- One of the key features of the Smart Farming website is its ability to enable systematic monitoring of essential agricultural elements.
- The website is built using HTML and CSS, ensuring a user-friendly and accessible interface for farmers on different devices and platforms.
- To enhance the functionality of the platform, we have integrated datasets gathered from Kaggle, allowing farmers to leverage data-driven insights to make informed decisions.
- In addition to the website, we have designed a user interface (UI) for the Smart Farming application using the Invision Studio Tool.

Responsive Portfolio Website (03/2023)

- Created a highly engaging and responsive portfolio website using HTML, CSS and JavaScript as well as responsive design techniques.
- This project involves designing and developing a website that looks great on all devices and screen sizes, from desktops to smartphones.
- In addition to the features mentioned above, this project includes the ability to switch between two different color schemes: a dark theme and a light theme.

SKILLS

C Programming · C++ · Python · HTML · CSS · Javascript · React.js · MySQL · SQLite · Object Oriented Programming · Data Structures and Algorithms

ACHIEVEMENTS

Participated in district level tournament as a team captain and bagged first position. (08/2021)

CERTIFICATES

SQL Essential Training (06/2023)
*Certificate of completion for successfully completing the course from **LinkedIn Learning**.*

React.js Essential Training (05/2023)
*Certificate of completion for successfully completing the course from **LinkedIn Learning**.*

Spark AR (11/2022)
Certificate of Participation for successfully completing the Reskill | Spark AR learn initiative.

Salesforce Admin (08/2022)
Successfully completed the 45 days practical training from Global Institute of Technology.

Introduction to C++ (03/2022)
*Certificate Of Excellence for successfully completing the course from **Coding Ninjas.***
